[illegible] FOR SALE

[illegible]

The Last of the Loan

OF THE

[illegible]

Railroad Company.

SAFE BEYOND QUESTION.

It is seldom that Mortgages upon new Railroads are considered sufficiently safe for the investment of Trust Funds. It is only when a Railroad is earning, net, an excess of its interest obligations, with a certainty of a steady growth, that its Bonds can be said to be *perfectly safe.*

The CHICAGO, DANVILLE AND VINCENNES RAILROAD is doing this, and has this certainty. That part of it known as the ILLINOIS DIVISION (from Chicago to Danville, 132 Miles,) was finished last year, and its gross earnings have increased from $34,464.06 in December, 1871, to $60,169.40 in October, 1872.

The net earnings for October were $28,399.62, or at the rate of $340,795.44 per annum. The total interest liability upon the total issue of Bonds upon both the Illinois and Indiana divisions is $[illegible]0,000, gold. The Illinois division is, therefore, earning, *net,* more than enough to pay interest upon the entire bonded debt upon the whole road.

THE INDIANA DIVISION,

is about eighty miles in length, traversing extensive Bituminous Coal fields, and making a direct (and the shortest possible) line between Chicago and the *Block Coal* district at Brazil.

The Iron and other materials for the Indiana Division have all been bought and paid for in cash; a part of it is now in operation, and the entire Division is to be finished this season and opened to a profitable business.

The company is not in debt, and owns a large and very valuable real estate in Chicago, beside having an equipment of twenty-four first-class locomotives and about 800 cars.

A first mortgage upon such a road, at the rate of $18,500 per mile is a safe investment, and we know of no other railroad bond, at the price asked for this, that can demonstrate a similar value as a security for savings banks and others.

We have sold nearly two millions of these bonds to savings banks, trust companies and the most careful investors, and have but $750,000 bonds remaining.

They are for $1,000 each, and have forty years to run. Interest

7 PER CENT. GOLD,

payable April and October. Present price 90 and accrued interest from October 1st in currency.

The last week of our sales of ILLINOIS DIVISION BONDS amounted to $500,000. Early orders are therefore suggested, in order to secure any portion of this extremely desirable loan.

Traffic Guarantee

AND

REDEMPTION BONDS

OF THE

SPRINGFIELD AND ILLINOIS SOUTHEASTERN RAILWAY.

Road 228 miles long, entirely completed and equipped. First Mortgage 7 Per Cent. Gold Bonds. Only $15,000 per mile. Interest payable semi-annually at the Farmer's Loan and Trust Company in New York.

PRICE 90 AND ACCRUED INTEREST.

This Road has a Traffic Guarantee from the well-known "Cleveland, Columbus, Cincinnati and Indianapolis Railway," by which it is estimated that from One Hundred to Two Hundred Thousand Dollars of these Bonds will be redeemed by lot, at par and accrued interest, each year, giving the fortunate holder 10 per cent. profit, besides 7 per cent. interest upon the investment.

We invite the attention of Capitalists and Investors to this security as a particularly desirable and safe one, and should be glad to furnish Pamphlets and Maps and full particulars upon written or personal application.

We have also for sale a small balance of the quarterly Coupon 8 PER CENT. GOLD BONDS of the "LOGANSPORT, CRAWFORDSVILLE AND SOUTHWESTERN RAILWAY" of INDIANA, a completed Road running for twelve miles through the CELEBRATED BLOCK COAL FIELD.

Government Bonds and all marketable securities taken in exchange at the market rates.

SECRETARY OF THE NAVY'S REPORT.

The navy now numbers 178 vessels, carrying 1378 guns. Of these 68 are steamers, 31 sailing vessels, 51 iron-clads and 28 tugs. Of this number 45 vessels are in commission for sea service; two only of these being iron-clads. This force is slightly stronger than at the date of the last report, and more efficient because it includes a number of smaller and more active vessels. The Secretary urges that the constant expenditure of money to keep afloat the ships built or commenced during the war, not adapted to present needs, and constructed hastily of unseasoned timber, is the most expensive method of maintaining a navy; and recommends that authority and means be at once given to build a number of small, active cruisers, of live oak or iron, which could be maintained and employed with more effect, and with comparatively little expense for repairs. Without new material he asserts that the active force at the several stations must decrease, until in a few years our cruising navy will pass almost entirely away. Several iron clads have been extensively repaired during the past year, at considerable expense; and some of the monitors are more effective that ever before.

The Secretary dwells upon the importance of the inter-oceanic canal between the Gulf and the Pacific, alludes to information already obtained from surveys of proposed routes, and urges that the appropriations for those surveys be continued until every practicable line has been surveyed and the whole subject investigated. Alluding to the advantageous position of the Navigator Islands with reference to our commerce and the importance of maintaining the friendly feeling there toward our Government, and the facilities afforded us by recent agreement, he asks that the American interests there struggling to establish themselves should be at least protected, if not encouraged. The satisfactory progress of the work of the Hydrographic Office is briefly described, and the recommendation is made that a building for the use of this department should be purchased. The Secretary urges the propriety of providing means for practical scientific experiments upon steam boilers, without which any legislation regulating the inspection and management of steam boilers must be imperfect. The recommendation previously made for the development of our navy yards is renewed; and the yards at Norfolk, New London and League Island are referred to in particular. Concerning the latter, the Secretary recommends that the old yard at Philadelphia be appraised, and the amount of its value expended on League Island. He recommends a moderate appropriation for building a naval prison at one of the marine stations. He repeats recommendations before made in regard to the reduction of the number of officers in the naval service, and the manner of filling the higher grades, and the increase of the time of service for cadet midshipmen at the Naval Academy. He suggests further that Congress should by law provide a certain amount of actual sea service to be served by an officer in each grade before he shall be eligible, in time of peace, for promotion to a higher one. A statement is made of the naval pension fund, and the estimates and expenditures for the Department are given full. The estimates are somewhat larger than last year, but the increase is almost wholly owing to demands for improvement in steam machinery and the enlargement and development of our torpedo system. The importance of the latter is urged at some length. The estimates are for $20,256,747.50, to which is added $2,140,310 for permanent improvements, current repairs, etc.

STATE NEWS.

The South Aroostook Educational Association will meet in Hodgdon, Dec. 19th, and continue two days.

Two new School-Houses have been erected in Lyndon during the past summer and autumn.

W. H. Bryant of Freedom, reported last week sick in Boston with small pox, has since died. He was one of the finest young men in the place.

Mrs. Record, of North Auburn, was knocked down by snow sliding off a store in Lewiston and rendered insensible, on Tuesday.

The Boston & Maine extension is making trouble for Saco. John A. Kelley, who fell in consequence of an excavation, asks the city to pay him $2000.

About fifty new buildings, houses, barns, stables, etc., have been erected the past season in the town of Fort Fairfield, adding several thousand dollars to the taxable property of the town.

In the case of the steam tug which about two years ago ran into Portland bridge, the proprietors of the vessel have recently settled with the commissioners, paying the sum of $600. Thus the principle that vessels injuring the bridge are responsible is established.

The Advertiser says that Hayden, Hibbard & Co., purpose to manufacture hoop skirts, bustles, &c., at Portland provided they are exempted from taxation for a term of years.—Their capital is $40,000 and they will give employment to about five hundred girls. These gentlemen were burned out by the recent fire in Boston.

Friday Nov. 29 while Mrs. C. C. Bradbury, of Sherman, was at work up stairs with her little girl, about eighteen months old, who was running about the room, the child unobserved, pushed a box which covered a ventilation hole, left through the ceiling over the kitchen stove, and fell through on to the stove which was at the time heated nearly red hot for the purpose of ironing. The child lay upon the stove until Mrs. Bradbury ran down the stairs, and, through another room, and took her off. The child was fearfully burned yet it is hoped she may recover.

Silas Ireland, jr., of Presque Isle, is 56 years old, has had a family of 19 children, and his wife, being a widow previous to her marriage with him, had three children by the first marriage; the whole nineteen he has reared. All of the children are living but two. One of his sons was instantly killed at the battle of Gettysburg, after he had that day fired thirty-six rounds at the enemy. One of his wife's sons also died in the army, leaving them 17 children now living. Mr. Ireland never tasted of spirituous liquors, nor was ever any used in his family for any purpose whatever. He, nor any of his sons, ever used tobacco in any form while living at home.

Two lads from Athens, Ga., have indulged "an affair of honor," with seconds and everything *en regle.* The weapons used were Alabama slings. One was hit three times and the other once. As the seconds were about as apt to be hit as the principals it was an affair of immense heroism all round.

Mr. Iverson, of Madison, Mich., has made two unsuccessful attempts to kill himself. The last was with a mixture of strychnine and laudanum, the former to take him off and the latter to put him to sleep, until the job was done.

A weekly magazine is to be started called "The Portland [illegible]," each number to contain [illegible] to be [illegible] in turn by the Portland city pastors. [illegible] complete the volume.

RELIGIOUS INTELLIGENCE

Rev. H. T. Arnold of Lyman, closed his labors with the Congregational church last Sabbath.

The South Parish Society at Augusta, have improved and decorated their vestry this season.

Rev. Addison Blanchard preached his farewell sermon at South Bridgton last Sabbath.

The Congregational church at Madison bridge, has been repaired and a new bell purchased.

Grace church, in Bath, has settled a new pastor, in the person of Rev. Mr. Hubbel of New York.

Contributions are going forward for the rebuilding of the Baptist church in Buckfield.

Rev. Mr. Crosby is on a brief visit to Maine in the interests of the Universalist Missionary Box claims.

A revival of unusual interest is in progress in the Congregational church in Eliot, under the ministration of Rev. Mr. Sanborn.

Rev. Wm. C. Curtis, pastor of the Congregational church at Richmond, is preaching a series of sermons upon the Lord's Prayer.

There is a deep religious interest prevailing in Limestone. The labors of Rev. Mr. Ridley are very acceptable to the people in that town.

Rev. Mr. Foster, pastor of the Congregational Church in Milltown, died in that town very suddenly on Saturday morning last, aged 81 years.

Rev. A. Morton, late of West Auburn, has received and accepted a call to the pastorate of the Congregational Church and Society at Oakham, Mass.

Rev. Mr. Bailey, late of the First Parish of Portland, has accepted a call from the Unitarian Society at Marblehead with a salary of $2500 a year.

Rev. Mr. Sanford of New York, formerly of Warren, Me., accepted a call to the 1st Baptist Church of Jefferson, and commenced his labors on the first of November.

The ladies of the 1st Baptist Church and Society in Jefferson, have just completed an organization called "The Ladies' Sociable." Its object being benevolent purposes.

Rev. I. J. Mead of Augusta, has received a unanimous call to the pastorate of the Universalist church and society in Hiram for one year, commencing January 1st, and has accepted.

The pulpit of the Congregational church at Wilton, that has been vacant for some months past, is to be supplied the coming year by Rev. Mr. Eastman of Conway, N. H., who has accepted a call to become the pastor of the society. He began his labors last Sabbath.

The whole expense incurred in the repairs made within a year or two, upon the Free Baptist church in Topsham was $2,800. The debt is in a fair way of being paid, through the efforts of the present pastor, Rev. Edward Manson. Church and pastor move along in great harmony.

The church at Newfield is building a new church edifice, and through their inability to complete it without aid, have made application to the Church Extension Society. This application has met with a favorable reception, and will doubtless result in an appropriation at the next meeting of the Board.

A series of Sabbath evening discourses to young people will be preached during the coming winter, in the Baptist, Congregational and Methodist churches of Waterville, on the last Sunday in each month. The first of these discourses was given last Sunday evening, in the Congregational church, by Rev. A. K. P. Small of Portland.

CLEARED.

Sch M L Crockett, Crockett, Winterport, towed down by stmr C H Sanford.

Shipping Notes.

Sch H Means, Nealon, from Bangor for Rondout put into Portland 5th, having encountered a heavy blow on Monday, off Cape Ann, and lost jibboom, mainboom, foresail and jib, and threw overboard 125 000 barrel staves from off deck.

MEMORANDA.

Master Gilbert Frost at Lubec, has a keel laid in J W [illegible]der's, Jr, shipyard for a three-masted schooner of 445 tons for Capt W B Hatch, present master of sch Crescent Lodge, to be ready for business next spring.

DISASTERS

Sch Scud, Holway, at Eastport from New York, reports that she passed the sch Julia Clinch, of St Andrews, off Deer Isle, Ms, on Sunday morning last, with both masts gone, spars and rigging lying alongside, apparently just towed in by a tug.

The sch Spring Bird, Hatfield, from Windsor, N S for Calais, was driven ashore at Musquash, N B, in the heavy gale of Saturday with loss of anchors and rudder.—Hopes are entertained of getting her off without further damage, by discharging cargo.

Sch Volto, Ingalls, of and from Eastport for Boston, struck on Cape Split, on the 4th inst, and sunk soon after. The crew were saved. The Volto was owned by James Robertson, of Eastport, and was loaded with old iron, herring and miscellaneous cargo. The cargo was partially insured but the vessel had no insurance on her.

A dispatch received by the owners of the Sch Addie Ryerson, at Lubec, before reported ashore in St John harbor, states that the sch is lying in a good position and will probably be got off all right.

FISHERMEN.

A number of fishing schooners are in the vicinity of Eastport waiting for a cargo of frozen herring. Some of them have obtained a part of a load, which will probably be spoiled by the present mild weather, and will have to be thrown away.

THE RAILROAD MEETING

We have entertained a very earnest conviction of the importance to Bangor of opening railway communication with the populated sections of Eastern Maine, and have sought to encourage the enterprise from the date of its inception. The project has now reached a stage in which the people of Bangor are called upon to give it a practical consideration and the meeting at City Hall tonight is for the purpose of considering as citizens how this enterprise is to affect the prosperity of our city and how much we can afford to contribute towards its construction. We hope that there will be a full attendance and that the question will be considered in all its bearings.

As we have previously stated, a responsible construction company of railway capitalists propose to subscribe to the capital stock an amount equal to the municipal and individual subscriptions along the line, and then to take the Company's bonds at 85 and at the rate of $20 per mile to construct a narrow gauge railroad fully equipped with rolling stock stations etc, from Brewer to East Machias. The towns and cities along the line have promptly voted five per cent. of their State valuation and Bangor, the Western terminus of the line is now asked to add to the extent of one and one-half per cent of valuation, or in other words to subscribe for $150,000 of the stock. The details of the proposition will be fully explained by some of the Directors, who will be present, and while it is desirable that the subject should be thoroughly and carefully considered we are assured that our confidence in the desire of our citizens to co-operate liberally with their Eastern neighbors, will be fully vindicated. We hope for a full attendance tonight and a frank consultation actuated only by solicitude for the best interests of the city.

THE GREAT POSTAL SERVICE

[illegible] Mr Gradgrind's appetite for facts would be appeased by the vast supply just furnished the public in the reports of the Cabinet officers, and no one of them could he feast so fully as on the report of the Postmaster General. While the statistician finds in this document an almost unlimited supply of the material in which he delights, the general reader will find a most interesting evidence of the great progress the nation is making in material development. The N. Y. Tribune has gathered the following interesting facts from the report:

Figures were never more eloquent than in showing that the country has [illegible] representing a total of [illegible] miles and that in delivering the letters intrusted to them Uncle Sam's mail bags are carried every year a distance greater than four thousand times around the globe. These are great facts but the figures say further that of these routes 57,911 miles are by rail and [illegible] by steamboat leaving 17[illegible] miles over which the mails must still be transported by horse power. The railroads and steamboats having an annual aggregate transportation of 66,500,180 miles, the post horses traveled 48,181,137 miles last year in carrying on the correspondence of the country. But every year their labors are becoming less rigorous since 1872 there was an increase in mail routes of 13,059 miles of which [illegible] were by rail. These figures show in striking light what strides the country is taking. On June 30, 1837 there were only 1,347 miles of railroad post routes in the whole nation, [illegible] thirty five years having been [illegible] miles. How completely we have risen superior to the misfortunes of war and the burden of a vast public debt is proved by the fact that the largest increase in any one year [illegible] railroads become post routes [illegible] as rapidly as they are built, so that the [illegible] of 5,67[illegible] miles mentioned in the report [illegible] assumed to represent additional [illegible] railways opened to travel.

At the present post routes lead to the [illegible] of 1[illegible] post offices, of which [illegible] were established last year and [illegible] making a net increase of [illegible] report [illegible] we told [illegible] of letters which pass through the mails but we are informed [illegible] stamps [illegible] and newspaper wrappers [illegible] these figures may fairly be taken as representing the [illegible] through the mails with the exception [illegible] large numbers of newspapers [illegible] to subscribers, under a special arrangement as to postage therefore we may [illegible] the letters carried during the year, at an average of about fifteen to each [illegible]. We are informed that in fifty two of the principal cities the free delivery system [illegible] letters, 36,027,065 newspapers and collected 115,117,321 letters. To [illegible] this immense quantity of mail matter [illegible] a large number of assistants, and we [illegible] surprised to learn that there were [illegible] postmasters, 6,044 contractors, 3,7[illegible] carriers, 704 route agents [illegible] railway postal clerks, 11 mail route messengers [illegible] local agents and [illegible] special agents making a total of 44,6[illegible] with the Postmaster General, and [illegible] assistants in the General Post-office at Washington. The conduct of this mail service required an expenditure of [illegible], and yielded a revenue of [illegible].

Many other facts of interest can be culled from this report. Only ten packages of postage stamps, representing $278 were lost in the mails. Of 4,898 missing letters containing funds, drafts, and currency, to the amount of [illegible] 54, 2,05 were registered and 2,50 unregistered of the former only 174 have been actually lost. But perhaps the most suggestive statistics are those which show that 4,211,374 letters were received at the dead letter office, and of those without inclosures 1,539,707 were remailed to the writers and 1,410,507 were delivered but [illegible] were returned and destroyed. In addition there were 294,575 letters destroyed for the reason that no clue to the writer or address could be discovered. Of the remaining 17,[illegible] all contained inclosures of some sort but the majority only trifling articles of jewelry, photographs, receipts, and bills of lading; but 7,444 contained money checks, drafts, and deeds of the nominal value of [illegible] 86 of which amount $[illegible] 18 was returned to the owners. It is not a pleasant fact that [illegible] letters were found to have wholly fictitious addresses and signatures, but it is still less pleasant to discover that 5,152 registered letters went astray. All the other statistics of the dead letter office show nothing worse than almost inconceivable carelessness upon the part of people. Upon the whole, however, this report presents a very flattering picture of national enlightenment and of official probity and capacity. We may add, as a proof of our growing intercourse with all the world, that during the year 24,36[illegible],500 letters were exchanged with foreign countries, of which number 12,774,064 were sent from, and 11,588,436 received in, the United States.

The Tribune editorially states that the daughters of the late Mr. Greeley are unwilling under any circumstances that the plan of a subscription for their benefit should be adhered to, but will not object to any testimonial to the memory of their father.

SHORE LINE RAILROAD.

The following Petition was presented to the Mayor and Aldermen and City Council at their meeting on Thursday evening [illegible] is confidently expected that their action will be in accordance with the request of the petitioners. The matter was adjourned for final action till Wednesday evening next, and in the Convention it was voted to hold a meeting of citizens at City Hall this Saturday evening, to discuss the proposition. We hope our citizens will manifest their interest in this important enterprise by a large attendance and that the matter will be discussed with a liberal recognition of its direct bearing upon the future growth and prosperity of our city —

To the Honorable Mayor and Common Council of the City of Bangor —

The undersigned, citizens and voters of said city, respectfully represent to your Honors that by the Charter of the Bangor & Calais Shore Line Railroad Company any cities or towns in either of the Counties of Penobscot Hancock or Washington, deeming themselves interested in having said railroad constructed or to be benefitted thereby, are authorized to take stock or loan their credit by a two thirds vote of such city or town at a legal meeting called therefor, to an amount not exceeding fifteen per cent. of the amount of their last State valuation, in aid of said road and they further represent to your Honor, that the cities and towns East of Bangor, to and including East Machias along the line of said road, have by legal votes of said cities and towns, voted to take stock at par value to the amount of five per cent. of their State valuation in said Company, in aid of said road, and that by reason thereof the amount ensured to be raised is such as to ensure the construction and equipment of said road with a reasonable amount subscribed by the city of Bangor and they further represent that they fully believe that the city of Bangor is materially interested in having said railroad constructed and in all its interests will be largely benefitted thereby, and that by the aid of a sum equal to one and one half per cent of the last State valuation from said city of Bangor the construction and equipment of said road will be ensured.

They, therefore respectfully request your Honors to call a legal meeting of the inhabitants of the city of Bangor, who are legal voters as soon as may be to see if the city will vote and take stock in said Bangor & Calais Shore Line Railroad Company to the amount of one and one half per cent of the last State valuation of said city, in the year 1872, and to issue the bonds of said city for the amount of stock taken on such time and on such terms as the City Council may deem expedient.

THE NEW E & N A RAILWAY BOARD

We clip from the St John Globe the following reference to the recent organization of the consolidated companies —

We announced yesterday the result of the election at the meeting of the E & N A Railway Company of Maine and New Brunswick. As was to be expected Mr G K Jewett was chosen President. The Vice President's position was given to Mr Burpee who certainly deserves it, and who we shall expect to look heartily and thoroughly after the interests of New Brunswick. Mr Burpee is one of the oldest members of the New Brunswick Company, and was really in the work before the Company was organized at all. He knows its wants its capacity all that it can do for New Brunswick, and we hope that he will use his position to make the road do more than it has yet done. We heartily endorse his appointment as a practical man, and likely to be very popular here. The new Superintendent is a good railroad man, and with Mr McLeod's able assistance and support at this end, the receipts, traffic and the general benefits of the road should naturally increase.

ONE OF MR. GREELEY'S LAST LETTERS

One of Horace Greeley's last letters was to Alexander McClure, bearing date of the last day Mr Greeley was at his editorial office. It was written in reply to one expressing sympathy with Mr Greeley for the loss of his wife, and the political misfortune that so suddenly followed —

NEW YORK, Nov 10th, 1872

My Dear Friend —I am a bundle of many errors and doubtless have deserved them but I beg to say that I do not forget the gallant though luckless struggle you made in my behalf. I am not well.

Yours, HORACE GREELEY

To Colonel A. K. McClure

POLITICAL AND PERSONAL

It is proposed to build a printers' monument to Horace Greeley.

Graham President of the Middletown, [illegible] bank is [illegible] unable to procure bail.

Moses Kimball declines the Boston Mayoralty to which office the Republicans nominated him Thursday evening.

Thomas A Johnson, senior justice of the Supreme Court of the State of New York died at Corning, Thursday evening.

Washington specials state that the President declines interfering in the Alabama Senatorial contest.

Charles O'Conor [illegible] claims [illegible] charge [illegible] in the Tammany fraud cases and says he [illegible] them from a conviction of duty.

Judge Durell of New Orleans before whom the Warmouth Kellogg case was pending has received letters threatening him with assassination.

Surgeon General Hammond expresses great regret that he was unable to weigh Mr Greeley's brain as was done with that of Daniel Webster. Mr Greeley's friends were not willing.

A call has been issued for a State Temperance Convention at Pittsburg, Pa., on the 10th inst., to consider the subject of total abstinence and to memorialize the State Constitutional Convention on the subject of prohibition.

A Columbia, S. C., special reports three white and two colored contestants for the position of United States Senator. It now appears as if the contest would narrow down to between ex-Gov Scott and Congressman Elliott (colored).

It is understood that Governor elect Dix of New York will advocate sweeping reforms in that State in his message which he is now writing. Among other things he will suggest the abolition of quite a number of State offices which will tend to largely reduce the expenses.

Gen O C Maxwell shot himself in his room at the Phillips House, Dayton Ohio Thursday, dying instantly. He was formerly Assessor of Internal Revenue in the third Congressional district and was one of the most gallant officers from Ohio during the war in which he was wounded five times.

A Washington special says a delegation from Alabama sent by Governor Lewis arrived Thursday to confer with the President. They assert that the trouble there arises from the late election, the old rebel element endeavoring to obtain possession of the State government and the course pursued by the present legal legislature was to prevent the threatened disturbance.

The Greeley Electors of Arkansas assembled Wednesday night and claiming to be elected cast a vote for B Gratz Brown for President, N P Banks for Vice-President. They did this after being officially informed by the Governor that on a canvass of the votes the Grant Electors were elected. The Greeleyites charge that the latter result was reached by fraud. Both parties in the State claim their ticket and will endeavor to install themselves in office.

A violent storm swept over Naples Wednesday night doing much damage to the shipping in the harbor.

THE CASE OF GEN. BANKS. The Washington correspondent of the Boston Journal telegraphs that,—

Sober second thought tells the Republican Representatives who voted for the retention of Gen. Banks at the head of the House Committee on Foreign Affairs, that they made a mistake which must be corrected, especially as neither Gov Blair or Gen. Farnsworth appear disposed to offer their resignations. It is now hardly possible to displace General Banks, although the Committee on Foreign Affairs can any day elect some member as their Chairman. The Speaker is of course powerless in the matter, as when he has once appointed a Committee his power over it is ended, unless there should afterward be a vacancy for him to fill by appointment. To show how the position has been regarded in years past, it is only necessary to mention that when a Democratic House was elected during the administration of John Quincy Adams, Speaker Stevenson, the father of the present senior Senator from Kentucky, appointed Edward Everett, who was of the minority, Chairman of the Committee on Foreign Affairs, taking the proper ground that the member occupying that place should enjoy friendly and confidential relations with the President.

The Albany *Argus*, Democratic, concludes its review of the President's Message as follows —"One reflection follows the perusal of this State paper. We are a great people, and if let alone and freed from the intermeddling of government are sure of a great prosperity." Coming from a Democratic source, this may be taken as quite a favorable criticism of an administration State paper.

The Hartford *Courant* says "We regret to notice that Mr Sumner took the first opportunity in the Senate to intrude his personality in a manner which cannot but be offensive to the soldier element of the entire country. The apparent object of his motion to strike from the army register and the regimental colors the names of the battles of the rebellion is to call attention to the superior loveliness and charity of his nature. To carry out the idea to its legitimate conclusion, it will be necessary to withhold pensions from Union soldiers, and remove the headstones from the military cemeteries."

FIRE! FIRE!!

I am the Agent for the sale of the celebrated **Morris & Ireland Safe,** which is considered the best, and most reliable safe to be found.

To any one who are in want of a reliable first class Fire and Burglar Proof Safe, I will make better terms then can be made elsewhere.

These Safes can be seen at the Treasurers office of Penobscot and Piscataquis R R, Messrs S & J Adams' Penobscot Savings Bank, and other places in the city. There are more than forty thousand of these safes in daily use, in the various Banking and Business Houses throughout the country. After the great Chicago fire, a Committee of gentlemen of Boston visited the scene of the great conflagration to ascertain what safe had withstood the test of the flames the best, and their testimony was in favor of the Morris & Ireland Safe.

The Henry F. Miller Piano.

It is now less than ten years since Mr Henry F Miller established his piano forte manufactory, and in that time these instruments have advanced to a most prominent position their unusual merits gaining for them favor throughout the country. The Henry F Miller piano fortes combine every quality that renders such an instrument desirable. Artists speak enthusiastically of the clear brilliant and powerful tone, public institutions favor them on account of their great durability. No instrument could endure so triumphantly the severe tests to which the Henry F Miller pianos have been exposed, unless it was thoroughly well made. The Henry F. Miller pianos are in daily use in the New England Conservatory of Music and in other local and foreign institutions of a similar character, and the high estimation in which they are generally held is attested by the award to Mr Miller of the contract to furnish instruments to the public schools of this city. At their first introduction to the public, these pianos immediately secured a recognition as first class in every respect, and on this basis a large business has been built up and is steadily advancing the instruments more than sustaining their reputation and increasing in favor as they become more widely known. The Henry F Miller pianos are now scattered throughout the country in private residences and in public institutions, everywhere speaking for themselves in their own magnificent tones.

MORRIS & IRELAND

Present the following COMPLETE record of ALL THE SAFES they had in the late GREAT FIRE, INCLUDING THEIR LOSSES, a statement which they do in justice to the public, not wishing to deceive the merchants of Boston by publishing only a list of their successes and covering up their failures. Their record is such that they are proud to make this exhibit, and challenge other manufacturers to follow their example.

BOSTON, November 12, 1872
Messrs MORRIS & IRELAND
Dear Sirs—We are happy to state that in the midst of the greatest conflagration which has just devastated our city, your safe proved all that was claimed for it, and placed itself, in our estimation, above all other safes. Lying as it did for eighteen hours in a solid bed of fire, at white heat, and showing, when opened our books and papers in an excellent state of preservation and ready for use it withstood a test as severe as could be expected in any fire and alike gratifying to you as to ourselves. In closing an order for a new safe we are very respectfully,
Yours
E B HULL & CO

BOSTON November 11, 1872
Messrs MORRIS & IRELAND
Gentlemen—We this morning opened our safe, which we recently purchased of you and found our books money and papers preserved intact nothing but the bindings of the books being scorched.
Our safe was located directly over several tons of coal. As soon as we are located we shall want another of your safes.
Yours etc
WARREN A FARR & CO

BOSTON, Nov 12, 1872
Messrs MORRIS & IRELAND
Gents—The safe which we purchased from you proves to be all you claimed for it. It fell from the third story but suffered only in its good looks. Every book is entirely legible and our moderate supply of greenbacks contained in the safe suffered no diminution. Among other property in the safe was more than three thousand dollars' worth of coupon bonds left with us for safe keeping, which are as good as new. Until two months since our books and papers were for fourteen years contained in a brick vault well built and deemed by us impregnable. The brick vault is a heap of rubbish, while the transfer of the most valuable of its contents to a "Morris & Ireland" gives us ample cause to feel happy in spite of all our other losses.
Very truly yours,
METCALF, PIERCE & CO

BOSTON November 12, 1872
Messrs MORRIS & IRELAND
Gents—After witnessing the opening of several safes this morning it was with considerable apprehension that I opened the one purchased of you (No 22) a short time since. It was in excellent condition inside—the books and papers perfectly legible—which I consider in a great measure owing to the inside iron doors, which were in so good a condition as to be easily unlocked. This safe fell from the second story to the cellar, and remained in the ruins over sixty hours. Please have another safe in readiness for me when I can secure another place of business.
Respectfully,
ISAAC H SEARS

BOSTON November 15 1872
Messrs MORRIS & IRELAND, Boston
Gents—The safe I purchased of you was in our large building on Hawley street, which was well stocked with paper and twine. It was buried in the ruins so deep that men were engaged over *thirty hours* in digging it out, when it was found *red hot.* I found my books, papers and money all right, and consider the fire proof qualities of your safe truly wonderful. As soon as I open a new store shall want another of your safes.
HENRY R. W. HALL

BOSTON November 15, 1872
Messrs MORRIS & IRELAND 64 Sudbury St
Gentlemen—The No [illegible] Safe which we purchased of you and was in the five story building corner of Congress and Water streets during the late fire subject to a WHITE HEAT was opened yesterday after being in EIGHTY FOUR HOURS, and found upon opening to be in excellent condition all the books being in perfect order and the lock in the burglar chest opened on the combination. Please accept our thanks for your success in FIRE PROOF SAFES. Shall order another as soon as located.
C WOODBURY & SON

BOSTON, November 15 1872
Messrs MORRIS & IRELAND
Gentlemen—We opened our safe this morning. We found it, after long search yesterday evening near the bottom of our cellar with three feet of fire on top of it. It had been there 137 HOURS, and subjected to an intense heat.
The books and papers are WELL PRESERVED and perfectly legible. The safe when found was so hot that it was necessary to resort to the cooling process by water for a long time. We are more than satisfied with its fire proof qualities, and wish you would furnish us with another of the same size at our new store, 128 Broad street, as soon as you possibly can.
Yours very respectfully,
GAY, DANA & CO

BOSTON Nov 15th 1872
Messrs MORRIS & IRELAND
Gentlemen—The safe we bought of you a few months since was in our store, 35 Summer street and went through the great fire, PRESERVING ITS CONTENTS TO OUR ENTIRE SATISFACTION. It fell near our winter's supply of coal which was burning around it when opened. We have special reason to be satisfied with the result, as safes of other makes were destroyed on every side of us. We shall want a size larger as soon as it can be furnished.
Yours truly,
O B NORTH & SON.

BOSTON November 15th 1872
Messrs MORRIS & IRELAND
Gents—It gives us pleasure to inform you that we have just opened our safe at 87 Water street, and find the contents to be uninjured. We consider this a good test of your safes, for our stock (*varnishes*) made a very hot fire.
Be kind enough to send us another No [illegible] at your earliest convenience.
Very truly yours
OSBORNE RYDER & CO,
Varnish Manufacturers

BOSTON Nov 18 1872
Messrs MORRIS & IRELAND
Gentlemen—The heavy safe of your make, which for the last [illegible] stood in our counting room, was taken from the ruins Saturday afternoon (*six* days after the great fire) and conveyed to our temporary quarters in THE GLOBE building. The safe, in *fall*ing into the cellar struck a post of the floor press which was directly underneath, breaking a hole in one side of it [illegible] would have gone through to the interior and probably have been destroyed on this account had it not been for the *inside wrought iron lining* which you use exclusively. Upon being opened however the contents were found to be in good order.
Yours very truly,
HENRY W. DUTTON & SON
Proprietors of Boston Transcript

BOSTON Nov 20 1872
Messrs MORRIS & IRELAND
Dear Sirs—The No 16 safe of your make, purchased by us a year ago, passed through the great fire of Nov 9 and 10, and brought out its contents in as fair a condition as we could have hoped for, taking into consideration the fact that the building in which our office was located was blown up with powder and the safe lay in the ruins *eighty four hours* before we were able to extricate it. We saved all our most valuable papers, and have been able to transfer all our accounts, even from the books worst charred. We have sufficient confidence to try another of same make, and you will please forward to us as soon as possible another of same size.
Very truly yours
IRA RUSSELL & CO

BOSTON Nov 21 1872
Messrs MORRIS & IRELAND
Gentlemen—My safe was situated on the third story of No 4 Otis street and fell with the building. On opening it the Monday after the fire I found what few private papers it contained in PERFECT ORDER. The books and papers of our firm I regret to say were in another safe and were burned to a cinder, proving to me that your make affords a superior fire proof protection.
Yours etc.
GEORGE P EAGER

BOSTON, Nov 21, 1872
Messrs MORRIS & IRELAND
Gentlemen—The safe we bought of you passed through the great fire of Nov 9 and 10 to our entire satisfaction. It was situated in the second story of our building, No 235 Congress street, and fell with the walls. After reaching and opening it, five days after the fire we were pleased to find all we had intrusted to it in *excellent condition,* and we believe it was all you claimed for it—a *first class fire proof safe.* We shall want another safe of your make.
Yours truly
DENHAM & STEPHENSON

BOSTON, Nov 19 1872
Messrs MORRIS & IRELAND
Gentlemen—The contents of the TWO No 6 safes we purchased of you a few months since came out in PERFECT CONDITION. Although they were inside our brick vault and were not subjected to as intense heat as a great many of your safes in other portions of the burnt district (from which we have a very flattering report) yet our confidence in your safes is such as to give them the PREFERENCE OVER ALL OTHERS. Please fill our order for another safe as soon as possible.
Yours very truly,
MACULLAR WILLIAMS & PARKER

BOSTON Nov 19 1872
Messrs MORRIS & IRELAND
Gentlemen—The safe purchased of you some six months ago after having been subjected to the intense heat of the Great Fire of No 9 and 10 has proved itself worthy of the highest praise as to its fire proof qualities. Bonds and papers remaining in the safe during the fire were found to be in a *perfect state of preservation.* As regards our books we would only say *they are now in daily use.* When located we shall want another safe.
Very truly yours,
CRAGIN, PAGE & CO

BOSTON, Nov 19, 1872
Messrs MORRIS & IRELAND
Gentlemen—We inform you with pleasure that the No 8 safe purchased of you has preserved its contents PERFECTLY through the late fire, and far better than any safe in our vicinity whose contents we have seen.
Yours very truly,
J. A. & W. S LORD

OUR LOSSES.

The following are the [illegible] parties using these [illegible]

particular attention is called to the circumstances of the loss.

BOSTON, Nov 15 1872
Messrs. MORRIS & IRELAND
Gentlemen—The safe we bought of you was destroyed with all its contents in the Great Fire but for all that we want another just like the last for we think it no fault of your safe that we lost the contents. It fell 20 feet, striking a heavy stone crushing the doors so that when taken from the ruins we pried the doors open with a crow bar. We are satisfied that your safe is the BEST MAKE IN USE, and should buy another.
Very truly yours
ALBERT A POPE & CO

BOSTON Nov [illegible] 1872
Messrs. MORRIS & IRELAND
Gentlemen—The safe I purchased of you in December last was destroyed with its contents in the Great Fire of the 9th and 10th inst. It was in a position where it was exposed to a VERY INTENSE HEAT. The safe was broken by falling and the FALLING UPON IT OF HEAVY IRON SHAFTING. This does not lessen my confidence in your safes and I am willing to try another. You will therefore please send me at once a No. 14 safe and much oblige.
Very truly yours
O. J. LEWIS

BOSTON Nov 21 1872
Messrs. MORRIS & IRELAND
Gentlemen—In reply to your inquiry [illegible] as to the condition of my safe after the fire I will say that, upon opening it I found the contents [illegible] after *nine days* buried beneath the smoking ruins [illegible] so that the building which I occupied (Merchants Building, corner Water and Congress streets) was blown up. From observations that I have made of different safes, I candidly believe your safes equal or superior to any others. You may send me another of the same size and pattern as my last.
Yours truly,
CHAS P STEVENS

There are four more of these safes still in the ruins but as their owners [illegible] other books before the fire, they have not been [illegible] but as soon as their contents are known the public will be notified.

Thus to sum up the whole matter: of Thirty six Morris & Ireland Safes in the Great Fire but three have been lost, and those under circumstances that exonerate the manufacturers from any blame.

In a few days we shall be [illegible] at the rate of fifty a week.

LOUISIANA FOR GRANT.

The following dispatch was received last night:—

NEW ORLEANS, Dec. 5.

To Wm. E. Chandler, Secretary of the National Committee:

The Republican Electoral College have received their certificates of election from the Canvassing Board and to-day cast the vote of Louisiana for Grant and Wilson.

(Signed) S. B. PACKARD, President of State Committee.

FORTY-SECOND CONGRESS—SECOND SESSION.

WASHINGTON, D. C., Dec. 6.

SENATE.

The rule requiring the election of the Chairman of the Standing Committees by ballot was suspended. The Standing and Select Committees were then elected. Mr. Wilson, of Mass., was excused from serving on the Military Committee. Several petitions were presented. A resolution was introduced creating a commission to adjust the claims under the Geneva award.

Mr. Ferry offered a bill repealing the "iron clad oath." Referred to the Judiciary Committee.

A resolution was adopted that the Finance Committee report what legislation is needed to relieve the present stringency of the money market and the propriety of an additional issue of legal tender notes.

The resolution calling on the President for information relative to sending troops to Arkansas, after a long debate, was referred to the Military Committee, by 23 to 18.

Executive session followed, after which the Senate adjourned.

HOUSE.

A bill was introduced for the payment of property destroyed during the war by order of the government.

A resolution was adopted calling for information as to the probable cost of a ship canal from the Mississippi river near the mouth to deep water in the Gulf of Mexico.

Mr. Dawes of Mass., from the Committee on Ways and Means, reported a bill abolishing the offices of Assessor and Assistant Assessors of Internal Revenue and transferring their duties to Collectors and Deputy Collectors. After the reading of the bill Mr. Dawes offered an amendment that it go into effect July 1st next, and explained the provisions of the bill.

A resolution was adopted directing arrangements to be made to transport the bodies of W. W. Dantz an employe of the House, his wife and child back to Princeton, Wis., and have them interred at the expense of the House. They were killed at the accident on the Pennsylvania Railroad last night.

Mr Dawes of Mass., resumed his remarks and stated that by the passage of this bill the saving which would be effected over the plan provided by the law of June last would be $1,700,000, and over the existing system of $3,000,000.

Mr. Myers of Penn., called attention to the fact that this bill would turn out of office all the Assessors, men who had the most administrative experience in connection with Internal Revenue and retain all the Collectors. He thought that the Government should be authorized to select from both classes of officials, and therefore gave notice of an amendment which he would offer legislating out of office all the Assessors and Collectors, and providing for the subsequent appointment of men as follows. This he said would give the Department the chance to select its best officials.

Mr. Wood of N. Y., called attention to the fact that the proposed appropriation for the Internal Revenue bureau of $5,000,000 was $900,000 greater than that for the present year, and asked where were the reforms. The real measure of reform is the abolition of the whole system. The import duties were fifty to one hundred millions in excess of the government expenses.

Mr. Beck of Ky., explained that the increase in the estimate of the bureau was because of the pay of store keepers and gaugers formerly paid by the distillers.

Mr Garfield of O., said that if the bill passed he would move to cut down the appropriation for the Internal Revenue department.

Mr. Duke of Va., gave notice to abolish the whole Internal Revenue system.

Mr. Garfield of O., suggested to Mr. Duke to abolish all the taxes and defray the expenses of the country out of the Treasury.

Mr. Kerr of Ind., supported the bill and favored the continuance of the Internal Revenue system, because it was the cheapest system of taxation, and because it was all Revenue.

Mr. Dawes of Mass., moved the previous question under the operation of which the amendments were agreed to, fixing the time for the bill to go into operation on the 1st of July, 1873, and requiring Collectors to give additional bonds for their new duties, and the bill was passed.

On motion of Mr. Haldeman of Penn., the Select Committee on the Centennial Celebration, were instructed to inquire into the feasibility and propriety of taking the Census of the United States on the 1st of January 1875, in one day on the defacto principle, and with prior schedules.

Adjourned to Monday.

THE WEATHER.

Probabilities.

In the Northwest and thence over the entire Lake region and to the Alleghanies and Tennessee; high barometer, generally clear weather and northerly winds veering in the northwest to southeasterly to-morrow; in the Gulf and South Atlantic States high pressure northerly to easterly winds and cloudy but clearing weather, with probably occasional rain; in the valley of the St. Lawrence, New England and the Middle States, generally clear weather, northwesterly winds and high pressures without a change of temperature.

ANOTHER SURVIVOR OF THE MISSOURI DISASTER.

SUFFERING AND DEATH FROM EXPOSURE.

HAVANA, Dec. 6. R. Smith, another survivor of the burned steamer Missouri, arrived at Nassau. Smith was the man who abandoned Conway's boat and swam to the capsized boat for the purpose of righting her. Conway cut the painter connecting the two boats, and they

DRIFTED OUT OF SIGHT

of each other. Smith and Alfred Steward drifted with the boat bottom upwards for three days,

AT THE MERCY OF THE WAVES.

On the 4th day they managed to right the boat and making a sail from life preservers proceeded and landed on the most Western Key of Avaco on the 7th day.

After landing Steward died from fever produced by exhaustion. Smith

CAUGHT A LITTLE

rain water on the 9th day, and that with prickly pears and soft shell crabs sustained him until the 1… h day when he was taken off the island and brought to Nassau.

He goes to New York on the steamer Columbia.

FROM BOSTON.

SUDDEN DEATH.

BOSTON, Dec. 6. Geo. Langdon Pratt, Treasurer of the Detroit, Lansing and Michigan Railway, died of apoplexy this morning at his office in Sears Building.

FOREIGN NEWS.

FRANCE.

THE SITUATION CRITICAL—THE ASSEMBLY HOSTILE TO THE REPUBLIC—GRAVE APPREHENSION FELT.

PARIS, Dec. 6. The Governmental situation at Versailles has unsettled business of all kinds throughout the country. The Committee of Thirty formed yesterday by the Assembly, is regarded as hostile to the Republic.

The Republican journals of Paris declares that the Assembly does not represent the will of France and demands its immediate dissolution.

President Thiers is expected to resign. The Government will probably make a statement at the session of the Assembly to-day, as to the course its intends to take.

THE COMMITTEE OF THIRTY

appointed by the Assembly yesterday in accordance with the motion of Minister Dufaure, held its first meeting to-day. The following officers were elected:—President, the Baron de Larcy; Vice-President, M. Audiffret Pasquier; Secretaries, M. Lefevre, Pauntalis and Haussmanville. The organization having been completed the Committee adjourned to meet on Monday, when it will proceed to business. According to the motion by which it was created the Committee is instructed to draw up the project of a law defining the responsibility of Ministers and regulating the relations of the several powers of the State. It is expected that it will report a bill declaring that any Minister who shall be censured, must resign, and excluding the President from debate in the Assembly, but giving him by the way of compensation a limited veto power. It is inferred from the political composition of the Committee that any proposition for a dissolution of the Assembly will be rejected and nothing more radical than a partial renewal of the Chamber once a year or once in every two years like the American Senate will be entertained.

PRESIDENT THIERS

has resolved that there shall be no change in the Ministry until the report of the Committee of 30 is presented, then if the report is unfavorable to him, he will oppose it in the Assembly.

—No Police Court items yesterday.

—The night train from St. John arrived half an hour late yesterday morning.

—Messrs. Patten & Wheelden, Masonic Block, Main st., are agents for the Henry F. Miller Piano.

—The Hersey Light Infantry of Oldtown, are to give a masquerade ball the 15th of next month.

—We notice that ashes are being scattered in the streets in many localities, in direct violation of the city ordinances and the serious injury of the sleighing.

—The Street Commissioner is carting gravel on to Valley Avenue and several other streets, much to the disgust of drivers of fancy turnouts and heavily loaded teams.

—The thirty-ninth anniversary of the Hammond-st. Sabbath School will be held to-morrow evening at 8 o'clock. Address by Rev. Dr. Ballard of Boston.

—Danie Stevens, Esq., of North Dixmont, one of the leading and influential citizens of that town, died on Saturday last of heart disease. He was about 65 years of age.

—The police made a small seizure of intoxicating liquor on the premises of Stephen Cony, corner of May and Front streets, yesterday.

—SUDDEN DEATH. Mr. Cook Brown, of Bucksport, fell dead in the street, on Thursday. He was between fifty and sixty years of age, and at the time of his death was in the apparent enjoyment of good health.

A FATAL FALL. Mr. Charles Locke, of Swanville, a man upwards of forty years of age, while fixing a window in his barn, yesterday forenoon, fell to the ground, breaking his neck and killing him instantly.

ROBBERY. The Railroad depot at Unity Village was broken open a few nights since and the money drawer was taken and carried away. The lucky rascals obtained a $2 counterfeit bill and thirty cents in good scrip, as the results of their venture.

PERSONAL. Gen. Thomas T. Eckert, general Superintendent of the Western Union Telegraph Company's lines, Eastern Division, is on his annual tour of inspection and will leave this morning for Plaista Cove, by the way of St. John and Halifax.

FIRE. We learn from Mr. Cook that a grain barn belonging to Rufus Whitmore, of Unity, was destroyed by fire on Tuesday night last. It was situated a mile from any other building, in a field, and was undoubtedly set on fire. The building was insured for $200 and the grain for $100.

—Workmen are engaged in blowing out the rock and excavating for the change in the location of the bridge near Boardman's tannery on Valley Avenue. A very slight change enables them to throw a single span across the stream, rendering it safer and much less expensive.

—The schooner *H. Means*, from this city for Rondout, put into Portland on the 5th inst., having encountered a heavy gale on the 4th, off Cape Ann, and lost her jib-boom, main boom, foresail and jib. One hundred and twenty-five thousand barrel staves, which were on deck, were thrown overboard.

DRAMATIC. The Oldtown Dramatic Club gave an entertainment on Thanksgiving evening which is spoken very highly of. The audience numbered over eight hundred persons, who gave evidence of being well satisfied with the efforts of the actors. The Club is to play in Dover about the middle of this month, and again at Oldtown New Year's evening.

THE FREE BAPTIST QUARTERLY MEETING being in session with the Essex street church, there will be public services with preaching to-day, forenoon and afternoon.—This evening the exercises will be in the interest of Sabbath Schools. Remarks will be made by several prominent speakers. There are in attendance several clergymen from abroad. For the services of the Sabbath see the church directory in another column. All are invited.

IMPROVEMENT. General Superintendent Eckert with Superintendent Bedlow, and manager Brown of New York, were in town yesterday putting in the new patent Duplex or double transmitter, by which messages can be sent both ways at the same time. This arrangement while adding to the facilities of the telegraph involves heavy expense and careful adjustment, requiring the lines to be kept in perfect order, and constant attention to batteries and instruments. This Duplex … [illegible] … the invention of Mr. … [illegible] … and careful study and experiment. The Western Union Telegraph Company, prompt to avail itself of every Telegraphic invention of real merit, have purchased the Sterns Patent, and are using it successfully on long and through circuits.

A TRIBUTE OF RESPECT. At a meeting of the Directors of the Farmers' National Bank, held at their Banking Room Friday forenoon, the following resolutions of respect to the memory of the late Hon. Solomon Parsons were adopted on motion of Henry A. Wood, Esq.:

Whereas, It has pleased God in his providence to suddenly take from us our esteemed friend and fellow-Director, Hon. Solomon Parsons, it is, therefore,

Resolved, That in his death this Board loses one of its most faithful and able Directors who, in an unbroken association of seventeen years, has, by his urbanity, his faithfulness and his unswerving integrity, so endeared himself to his associates that his sudden death comes upon them as a great personal loss.

Resolved, That, while we extend our deepest sympathy to his bereaved family, we feel to congratulate them that for so many years they have been blessed with his warm affection, his wise counsel and his noble example.

Resolved, That, as a token of esteem for the deceased, this Board will attend his funeral, and that a copy of these resolutions be presented to his family.

THE EXHIBITION DRILL OF THE BANGOR CADETS. The attendance on the drill given by the Cadets at City Hall last evening was very good, the galleries being filled and a few spectators having seats below. After an overture by Andrews' band, the Company which numbered twenty muskets and commanded by Capt. George Hathorn began their evolutions. Their marching was very fine, each member being prompt on command for the various evolutions. They showed much proficiency and a thorough drill in the manual of arms. The superior features were the bayonet exercise and the silent drill, which was repeated on an *encore*. Their efforts drew frequent and hearty applause from the assembled spectators who were much pleased with their skillful evolutions and handling of their arms. The drill was followed by a social dance which was joined in by a large part of the spectators.

THE LOST MAN FOUND. We learn from Conductor Putnam of the B. & P. Railroad that Henry Williams, the Welshman who was lost on Friday, November 29th, was found Thursday noon. It seems that he started Friday night to go to the Howard slate quarry, near the head of Sebec Lake, and getting bewildered was lost. He finally came to a hunter's camp on No. 8, where he remained until found. He was thinly clad, and suffered severely from the cold, both of his feet were frozen and he will probably have to lose them. The unfortunate man stayed all this time without food, and only crawled out occasionally for water. It was not known that he was lost for two days, and as soon as his absence was discovered Mr. C. B. Lakin, who has charge of the quarry, turned out with all his men and hunted for the lost man until Thursday noon, when he was found as above stated, and kindly cared for.

THE COUNTERFEIT MONEY SWINDLE. A correspondent, writing from Medford Centre, sends a circular which is being sent to persons all over the State. The swindler who sends it out represents himself as an engraver who has worked for the Government for ten years and is familiar with the plates for making greenbacks. He says he has made a set of these plates for himself, and now wants assistance in circulating the money he has manufactured. He advertises to send it by express, C. O. D. But, differing from his brother scoundrels, he writes parties wishing to secure some of this money, to come to him in New York; enjoining them not to come to his office, but to go to an up-town hotel or boarding house, and drop him a note, so that he can call upon them. He says, "Bring all the money you can possibly raise, with you, so you will be prepared to buy a large stock, for this may be the last chance you will ever have to make a fortune at a single stroke."—The name D. G. Stenben, 609 Broadway N. Y., is written on a slip of paper and attached to the circular. The whole is a villain's scheme to get money, and any one gullible enough to be taken in by the circular, will see how it is done.

STATE PRISON SLEIGHS.

Mr. Editor,—In your issue of the 4th inst. I noticed among your locals an article informing the public that an agency for the sale of "State Prison Sleighs" had been established at the Harriman House, that the character of the State Prison manufactures have been steadily improving, and that they are turning out work excellent in quality.

In regard to the management of Mr. Rice, the Warden of the State Prison, in keeping the prisoners profitably employed by instructing them in the useful arts, there can be but one opinion. In regard to the quality of the work, especially in carriages and sleighs, there may be two opinions, and also in regard to the policy of allowing the Warden of that institution with the help of unpaid labor, to compete with the mechanics of this State in the manufacture and sale of carriages.

There can be no question but that this State Prison agency, with its convict labor, can sell a certain class of sleighs cheaper than those who are obliged to pay living prices for their help, but that the slave labor of a prison can manufacture carriages or sleighs equal in quality to the paid labor of this city every mechanic will deny.

I have been informed by Mr. Rice, that there has never been a carriage-maker sentenced to State Prison in this State, and that being so, it is difficult to understand how thieves and vagabonds, the most depraved men in our communities (if I may be permitted to so characterize Mr. Rice's assistants), can in a comparatively short period, become sufficiently proficient to compete with our trained mechanics in the manufacture of sleighs and carriages.

It is not my intention to injure Mr. Rice, or Mr. Marden, his agent, or any other gentleman trying to earn a living by the sale of sleighs, but as a mechanic long resident in this city, and understanding the difficulties and expense attending the manufacture of carriages here, I enter the protest of our mechanics, against the policy of allowing the Warden of the State Prison to enter into competition with, and drive to other localities a class of citizens, who have an earnest interest in the prosperity and welfare of our State.

B. N. THOMS.

IRON PRICES REDUCED. At a meeting of the Western Iron Association at Pittsburgh, Pa., Wednesday, the price of iron was reduced $12 per ton and the price of nails, which of late has been advancing in the market, was reduced half a dollar per keg. The recent decline in the price of pig metal accounts for the reductions.

PRODUCTIONS AND COMMERCE OF CINCINNATI. The annual report of the trade and commerce of Cincinnati shows the aggregate value of the imports for the year to be $317,000,000 and the total value of the exports $209,000,000, an increase of $21,000,000. The greatest increase has been in iron. IMPORTANT BANK VERDICT. The case of the Merchants' National Bank of Memphis, Tenn., vs. National Bank of Commerce of Boston, which has occupied U. S. Circuit Court several days has resulted in a verdict for plaintiffs for $34,504.23. The suit was brought to recover damages for negligence on the part of the defendants in giving up to the consignees the bill of lading of a lot of cotton upon the acceptance by the Consignees of a thirty days draft drawn against the shipment, and attached to the bills of lading, and sent into the defendants' Bank for collection. The plaintiffs contended that it was the duty of the bank to keep the collateral until the draft was paid, and that by reason of giving up the bills of lading the plaintiffs lost their security, the Consignees having failed before the expiration of 30 days after the acceptance.

THE NORTH CAROLINA SENATOR. Judge Merrimon, elected Senator for North Carolina, was a law partner of Judge Phillips, recently appointed Solicitor-General. He is said to have stated that if elected Senator he should act with the supporters of the administration, and this is said to be the reason the Republicans voted for him, when it was found that Pool could not be re-elected. Merrimon is reported to be a man of good abilities and character.

Another terrible railway horror is reported this time on the Pennsylvania Central road. Thursday an express train about fifty miles west of Harrisburg telescoped two Pullman cars on the rear of a passenger train, and up to last accounts five dead bodies had been recovered, and identified as follows: Matthew Knowles and J. W. Bacon, both of Chicago, and W. W. Dantz, wife and child, of Green Lake, Wisconsin. Five persons were injured but none seriously. Every person on the second train escaped uninjured.

RE-ANIMATING THE HAIR.—When the hair ceases to draw from the scalp the natural lubricant which is its sustenance, its vitality is, as it were, suspended, and if not promptly attended to, baldness will be the certain result. The one sure method of avoiding such an unpleasant catastrophe is to use LYON'S KATHAIRON, which when well rubbed into the scalp, will speedily re-animate the hair and prevent it from falling out. Besides that this inimitable resuscitant and strengthener of the Hair nourishes and stimulates its young and tender fibres, removes all obstacles to their growth in the shape of dandruff and dirt, and ultimately produces a new crop of hair, stronger, glossier, and twice as abundant as the old. As a hair dressing it is notably the most agreeable, refreshing and serviceable article ever placed upon a dressing-table.

From increased Physical and Mental Strength of persons who use Fellow's Compound Syrup of Hypophosphites, their augmented faculty of endurance, the regular and healthy action of the Heart, Lungs, Stomach and Bowels, and their improved appearance demonstrated in thousands of cases within our knowledge, its power of restoring the great sympathetic and muscular system on which full and healthy development depends, is certain.

HOLLOWAY'S OINTMENT.—Why is this preparation in such demand among families? Because every mother feels that for the external injuries and diseases incident to every household it is a sure and immediate remedy. Sold 78 Maiden Lane, 25 cents per box. Ask for new style; the old is counterfeited.

Consumption can be Cured.

SCHENCK'S PULMONIC SYRUP,
SCHENCK'S SEAWEED TONIC,
SCHENCK'S MANDRAKE PILLS,

Are the only medicines that will cure Pulmonary Consumption.

Sometimes medicines that will stop a cough will often occasion the death of the patient. It locks up the liver, stops the circulation of the blood, hemorrhage follows, and, in fact, clogging the action of the very organs that caused the cough.

Liver complaint and dyspepsia are the causes of two thirds of the cases of consumption. Many are now complaining with dull pain in the side, the bowels sometimes costive and sometimes too loose, tongue coated, pain in the shoulder blade, feeling sometimes very restless, and at other times drowsy; the food that is taken lies heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach or a torpid liver. Persons so affected, if they take one or two heavy colds, and if the cough in these cases be suddenly stopped, the lungs, liver and stomach clog, and remain torpid and inactive, and before the patient is aware of his situation, the lungs are a mass of sores, and ulcerated, and death is the inevitable result.

Schenck's Pulmonic Syrup is an expectorant which does not contain any opium, nor anything calculated to check a cough suddenly.

Schenck's Seaweed tonic dissolves the food, mixes with the gastric juice of the stomach, digests easily, nourishes the system, and creates a healthy circulation of the blood. When the bowels are costive, skin sallow, and the patient is of a bilious habit, Schenck's Mandrake Pills are required.

These medicines are prepared by Dr. J. H. SCHENCK & SON, Northeast corner of Sixth and Arch streets, Philadelphia, Penn., and for sale by GEO. C. GOODWIN & CO., Hanover street, Boston, & JOHN F. HENRY, 8 College place, New York, Wholesale Agents.

DR. H. A. BARROW

may be confidentially consulted, as usual, at his private office,

18 MAIN STREET, BANGOR,

from 9 till 12 and from three till 6 P. M., and at

FRANKLIN HOUSE

from 6 till 8 P. M.

Hundreds are suffering from the effects of early indiscretion, who may be restored to health and strength by consulting an educated Physician, who has made these diseases a specialty.

Dr. Barrow's treatment, during an extensive practice of many years, has been eminently successful in curing Nervous, Mental and Physical Debility, Exhaustion, Inaptitude for Business or Application, Dimness of Sight, Giddiness, or Noises in the Head or Ears, Painful Dreams, Pimples on the Face or Body, want of Nervous Force, Timidity, Bashfulness in Society, Pains in the Back or Loins, Impaired Memory, Irritability, Weakness of the entire System, Palpitation of the Heart, General Dejection, and numerous other symptoms, leading to Premature Decay, Impotence, Sterility, Premature Senility, &c.

The Doctor particularly invites those patients whose cases have been neglected or pronounced incurable, to place themselves without delay under his care, assuring them all that can be accomplished by science, skill, and the successful results of a long practice, will be at their service.

He distinctly states no case will be undertaken unless a permanent cure can be guaranteed.

All letters containing the usual consultation fee of $5, and fully describing the case, will be be immediately attended to.

All letters and parcels for Dr. Barrow to be directed to Franklin House, Bangor.

DEATH.

The stars that disappear at morn,
Oh, think not they are fled;
They are not lost they are not gone,
But amid the glory shed
Around them by the source of light,
They shine more sweetly than at night;
It is the night that's dead.

And thus the loved who disappear,
Pass like the morning's flight,
But walk in paths so sweet and clear,
As blind us with the light—
They sit upon the azure day,
They float on twilight's downy gray,
And on the clouds at night.

Oh deep and wondrous heart of man,
Strange fount of joy and woe,
In this sad life no eye may scan
Thy current's ebb and flow.
But in the glorious world to come,
The voice of discord shall be dumb,
And thou thyself shalt know.

—Boston Globe.

UNDER-CLOTHING FOR COLD WEATHER.—I have written on this subject before, but there seems to be need of precept upon precept. Of late I have been learning better ways than I knew before. For children of three years and over there is nothing better, perhaps, than an under-garment clothing the body from the neck and wrists to the heels, much like the night-drawers children wear.—They may be made with a plain, easy, high-necked waist, with long, straight sleeves, and with open drawers sewed to the waist. The drawers should be rather full at the top, but small enough at the lower part of the leg to go inside the stocking, reaching to the heel, or leaving no gap above the shoe. "Doctors disagree" about the material of this under-garment, some recommending woollen and some cotton. Taking into account the difficulty of washing woollen without shrinking it and the disagreeable sensation many skins experience in wearing it, probably the best way in most cases is to have this under-garment made either of cotton-flannel or of thin cotton-cloth, with a similar garment of warm woollen material over it. Buttons at the waist support the other under-clothing.—There are many sensible ladies in these United States now wearing under-garments similar to those just described. Among them the preference is usually given to thin cotton material for the suit next the body, with a suit made of woollen (white flannel, gray ladies' cloth, or red firemen's flannel) in the same fashion worn over the cotton suit in winter weather. With two such woollen suits for frequent changes, to give opportunity for thorough airing and sunning of the woollens, they require very little washing. The cotton next the body takes up the perspiration, etc., and this gets the good weekly washing. The woollen suit when taken off weekly for a change need only be exposed to pure air and sunlight for a day or two to purify it properly, washing it only when it visibly requires it.—If men wear cotton under their woollen shirts the woollen may be treated in the same way, and men who are not engaged in dirty work can wear their woollen shirts all winter with very little washing, purifying them by air and sunshine each week when changes are made. Ladies' cloth shirts shrink less than common flannel.—Faith Rochester in American Agriculturist.

Healthful Climate, Free Homes, Good Markets

THE NORTHERN PACIFIC RAILROAD offers for sale its Lands in Central and Western Minnesota, embracing: 1. The best of Wheat Land; 2. Excellent Timber for the Mill, the Farm and the Fire; 3. Rich Prairie Pasturage and Natural Meadow, watered by clear Lakes and running streams—in a Healthful Climate, *where Fever and Ague is unknown.*

Grain can be shipped hence by lake to market as cheaply as from Eastern Iowa or Central Illinois. Cars now run through these Lands from Lake Superior to Dakota. Price of land close to track $4.00 to $8.00 per acre; further away $2.50 to $4.00. Seven Years' Credit; Warrantee Deeds; Northern Pacific 7-30 Bonds, now selling at par, received for land at $1.10. No other unoccupied Land presents such advantages to settlers.

SOLDIERS under the New Law (March, 1872) get 160 acres FREE, near the railroad, by one and two years' residence.

TRANSPORTATION AT REDUCED RATES furnished from all principal points East to purchasers of Railroad Lands, and to Settlers on Government Homesteads. Purchasers, their wives and children carried free over the Northern Pacific Road. Now is the time for Settlers and Colonies to get Railroad Lands and Government Homesteads close to the track.

OFFICIAL.

LAWS OF THE UNITED STATES.

Passed at the Second Session of the Forty-second Congress.

Detailed Regulations arranged between the Post-office Department of the United States of America and the Post-office Department of Denmark, for the Execution of the Postal Convention signed at Washington the 1st day of December, 1871, and at Copenhagen the 7th day of November, 1871.

ARTICLE I.

The offices for the exchange of the mails shall be: On the part of the United States, (1) New York; (2) Chicago. On the part of Denmark: (1) Copenhagen; (2) the travelling office between Korsoer and Kiel.

The exchange offices of New York and Chicago shall make up closed mails for the exchange offices of (1) Copenhagen, (2) the travelling office, between Korsoer and Kiel; and these Danish offices shall make up closed mails for New York and Chicago.

ARTICLE II.

Each mail exchanged between the two administrations shall be accompanied with a letter-bill, showing the postages, &c., accruing to each office upon the different kinds of correspondence. The form of this letter-bill shall follow the models A and B, hereto annexed, and shall consecutively be numbered by the despatching office during each calendar year.

The receiving office shall acknowledge its receipt by the next dispatch.

ARTICLE III.

The exchange offices shall divide the correspondence which they dispatch into a suitable number of separate packages, according to the letter-bill. Each of these packages shall bear the proper etiquette and number corresponding to the letter-bill.

ARTICLE IV.

When more than a single rate is chargeable upon any letter or other article, the number of rates to which it is subject shall be indicated by the dispatching office, by a figure in the upper left corner of the address.

ARTICLE V.

Registered correspondence shall be described in a register-list, following the models C and D, hereto annexed.

All registered letters shall be enveloped together in a strong paper, securely fastened, and the packet inscribed with the words "*Registered*" or "*Recommanderet*," and placed in the mail.

The blanks in the letter-bill for expressing the number of registered articles shall be filled by letters and figures expressing the number.

In case no registered articles are sent, the proper blank of the letter-bill shall be filled with the word "*nihil*" or "*nil*."

ARTICLE VI.

The registered letters dispatched shall be acknowledged immediately by the receiving office. If the verification by the receiving office shall disclose an error of any kind in the register-list, it shall be also by the first mail notified to the dispatching office.

ARTICLE VII.

All letters exchanged between the two offices shall indicate, by stamp or writing thereon, the office of origin, and the unpaid letters so exchanged shall also be stamped with the name of the dispatching office of exchange.

Correspondence fully paid to destination shall be stamped "*Paid all*," in the United States, and "*Franko*," in Denmark.

Registered articles shall be stamped "*Registered*," in the United States, and "*Recommanderet*," in Denmark. Correspondence insufficiently paid shall be stamped "*Insufficiently paid*," in the United States, and "*Utilstrækkelig frankeret*," in Denmark, and the amount of the deficient postage expressed in figures on the face.

Correspondence dispatched by the direct line between the respective countries shall be stamped "*Direct service*," or "*Søvej direct*."

When dispatched *via* Germany, it shall be stamped to indicate German transit.

ARTICLE VIII.

The two post departments are mutually to furnish each other with lists stating the foreign countries to which the foreign postage, and the amounts thereof, must be absolutely prepaid, or can be left unpaid; and until such lists are furnished, neither country is to mail to the other any correspondence for foreign countries in transit through the country to which the mail is sent.

Such lists shall also indicate the foreign countries with which registered correspondence may be exchanged in the open mails between the respective offices and the conditions thereof.

ARTICLE IX.

The respective exchange offices shall mark in *red ink*, in the upper left corner of the address of prepaid letters sent for transit in the open mail, the amount of the postage due for exterior service to the country through which the same are forwarded, and in the same manner, but in *black ink*, shall mark the amount due for postage to the forwarding office upon the unpaid letters so sent in transit.

ARTICLE X.

Letters originating in or destined for foreign countries, sent in the open mails through the United States or through Denmark, and which are insufficiently paid, shall be transmitted as wholly unpaid and no account taken between the two administrations of the amount prepaid; but letters and other correspondence originating in foreign countries, and addressed to the United States or to Denmark, respectively, on which the foreign and international postage charges are fully prepaid, shall, when forwarded through the mails of either country, to the other, be delivered in the country of destination free of charge.

ARTICLE XI.

The letters and all registered articles mutually returned as not deliverable shall be accompanied by a statement exhibiting the number of ordinary letters and the number of addresses of the registered articles so returned, and the aggregate amount reclaimed thereon from the dispatching office, which statement shall be verified and acknowledged as early as practicable.

The expense of transit of unpaid correspondence which has been transmitted by either administration in closed mails, and which shall be returned to the dispatching office as not deliverable, shall be deducted from the original amount charged for transit, upon a declaration of the amount, by the office claiming the reduction.

No charge will be made by either administration for the transit of correspondence returned as not deliverable.

ARTICLE XII.

All correspondence wrongly addressed, or missent, shall be returned without delay by the receiving office to the exchange office which dispatched it. The receiving office shall also correct accordingly, in the column of verification, the original entries of the letter-bill relating to such correspondence. The articles of a like nature addressed to persons who have changed their residence shall be mutually forwarded, charged with the rate that would have been paid at the first destination, or returned for the amount, if any, originally charged against the receiving office.

ARTICLE XIII.

The dispatching exchange office shall state on the letter-bills to the intermediate exchange offices the exact number of single rates of letters, or weight if required, and the total weight of the other correspondence, which shall be dispatched in closed mails.

ARTICLE XIV.

It is understood that the accounts between the two offices shall be established on the respective letter-bills in the proper money of the dispatching office; but the international postages on the unpaid or insufficiently paid letters shall be computed in the money of the receiving country. In entering the foreign charges on the letter-bill in the money of the dispatching office, the cent of the United States and the skilling of Denmark shall be taken as equivalents.

ARTICLE XV.

The quarterly accounts shall be prepared by the respective postal administrations, and shall be based upon the acknowledgements of receipt. A recapitulation of these accounts, showing the definite results alike for the debt and credit, shall be prepared by the United States office, and shall then be transmitted, with the accounts on which it is based, for the examination of the post-office of Denmark.

ARTICLE XVI.

It is understood that so long as no accounts are kept between the Post-office Departments of the two countries of the international postage on the correspondence exchanged between them, so much of the preceding articles as relates to the preparation and adjustment of the postal accounts shall not be taken to include or comprise the international postages in such adjustment.

The forms for accounting such postages shall be arranged by mutual agreement, whenever either of the final claim accounts of the international postages to be kept and settled as provided in Article IX. of the convention. But the amounts of postage or other tax for exterior service accruing to, or receivable by, either department as well as any sum or sums advanced by one country for and on account of the other, shall, nevertheless, be stated and settled quarterly in the manner hereinbefore prescribed.

ARTICLE XVII.

These detailed regulations shall be ratified on the part of the United States by the Postmaster-General, and on the part of Denmark by the Royal Director-General of Posts.

Done at Copenhagen, in duplicate original, this 7th day of November, 1871, and at Washington this 1st day of December, 1871.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That so much of section six of an act entitled "An act making appropriations for the support of the army for the year ending June thirtieth, eighteen hundred and seventy, and for other purposes," approved March third, eighteen hundred and sixty-nine, as prohibits promotions and new appointments in the Engineer department be, and the same is hereby, repealed: Provided, That nothing herein contained shall authorize promotion in said department above the grade of colonel.

Approved, June 10, 1872.

[GENERAL NATURE—No. 143.]

AN ACT to refund duties paid on goods, wares, and merchandise remaining in bond or store on the first day of August, eighteen hundred and seventy-two.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That whenever it shall be shown to the satisfaction of the Secretary of the Treasury that parties are entitled to refund of duties paid on goods, wares, and merchandise remaining in public stores or bonded warehouses on the first day of August, eighteen hundred and seventy-two, under the provisions of the eighth section of the act approved June sixth, eighteen hundred and seventy-two, entitled "An act to reduce duties on imports and to reduce internal taxes, and for other purposes," it shall be the duty of the Secretary of the Treasury to draw his warrant upon the Treasurer, directing said Treasurer to refund the same out of any money in the treasury not otherwise appropriated.

Approved, June 10, 1872.

[GENERAL NATURE—No. 139.]

AN ACT to extend the provisions of an act entitled "An act for the final adjustment of private land claims in the States of Florida, Louisiana, and Missouri, and for other purposes."

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the provisions of the act entitled "An act for the final adjustment of private land claims in the States of Florida, Louisiana, and Missouri, and for other purposes," approved June twenty-second, eighteen hundred and sixty, be and the same are hereby, extended, and the same shall continue in force for a period of three years from and after the passage of this act.

SEC. 2. That all persons claiming land as specified [illegible] claimants, and those from whom they derive title, have held continuous possession of the land claimed, from the date of the cession to the United States of territory out of which the States of Florida, Louisiana, and Missouri, were formed.

Approved, June 10, 1872.

[GENERAL NATURE—No. 141.]

AN ACT to authorize the sale of certain public property.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of War be and he is hereby, authorized and directed to sell, in whole or in such subdivisions as shall, in his opinion secure the greatest amount of money, either by public auction or by inviting proposals for the purchase thereof, and in either case to the highest bidder, all the lands and tenements belonging to the United States, at Rome, New York; Vergennes, Vermont; Fayetteville, North Carolina; Mount Vernon, Alabama; and Chattahoochee, Florida, now or heretofore used for arsenal purposes, and known, respectively, as Rome arsenal, Champlain arsenal, North Carolina arsenal, Mount Vernon arsenal, and Apalachicola arsenal; also the captured lands and tenements belonging to the United States at Shreveport, Louisiana; Marshall and Jefferson, Texas; and in Marion and Davis counties, Texas; and a tract of forty acres of land, more or less, situated about two and one-half miles from the present United States arsenal at Augusta, Georgia, which comprises the site of the old United States arsenal and any adjoining land purchased by the so-called "confederate States," which fell to the United States as captured property, and which has not hitherto been sold, and all the material and buildings of the powder-works erected by the so-called "confederate" government thereon: Provided, That no sale shall be made under this act until the time, terms, place, and mode thereof shall have been published in one of the principal newspapers in the city of Washington, in two of the principal papers printed at the capital of the State, and one paper printed in the county in which the arsenal or lands to be sold are situated, for the space of sixty days prior to the sale. If no newspaper is printed in the county where the property to be sold is situated, then the notice shall be published in a newspaper printed in an adjoining county.

SEC. 2. That the terms of payment for the property above to be sold shall be in all cases not less than one-fourth cash and the remainder on a credit of one, two, and three years, with interest at six per centum per annum, secured by land and surety from the purchaser or purchasers; and the Secretary of War is empowered and required, on receiving the purchase-money in full, to execute all necessary deeds of said property to the purchaser or purchasers thereof on behalf of the United States.

SEC. 3. That the proceeds of said sales, after paying the necessary expenses thereof, shall, upon receipt of the same, be paid by the Secretary of War into the treasury.

Approved, June 10, 1872.

[RESOLUTION OF GENERAL NATURE—No. 1.]

JOINT RESOLUTION providing for a more effective system of quarantine on the Southern and Gulf coasts.

Whereas experience has proved that the present system of quarantine on the southern and gulf coasts is inefficient to prevent the ravages of yellow fever in the cities and towns of that section, Therefore,

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of War be, and is hereby, directed to detail one or more medical officers of the regular army, who shall during the coming season, visit each town or port on the coast of the Gulf of Mexico and the Atlantic coast, which is subject or liable to invasions of yellow fever, and shall confer with the authorities of such port or town, with reference to the establishment of a more uniform and effective system of quarantine, and who shall ascertain all facts having reference to the outbreaks of this disease in such ports or towns, and whether any system of quarantine is likely to be effective in preventing invasions of yellow fever, and, if so, what system will least interfere with the interests of commerce at said ports; and shall make, also, a detailed report on this subject to the Secretary of War, through the Surgeon General, on or before the assembling of the third session of the Forty-second Congress, in December, eighteen hundred and seventy-two.

Approved, June 6, 1872.

[GENERAL NATURE—No. 142.]

AN ACT for the restoration to market of certain lands in Michigan.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That all the lands remaining undisposed of in the reservation made for the Ottawa and Chippewa Indians of Michigan by the treaty of July thirty-first, eighteen hundred and fifty-five, shall be restored to market by proper notice, under direction of the Secretary of the Interior, as hereinafter provided.

SEC. 2. That said unoccupied lands shall be open to homestead entry for six months from the passage of this act by Indians only of said tribes who shall have not made selection or purchases under said treaty, including such members of said tribes as have become of age since the expiration of the ten years named in the treaty; and any Indian so entitled shall be permitted to make his homestead entry at the local office within the six months aforesaid of not exceeding one hundred and sixty acres, or one-quarter section of minimum or eighty acres of double minimum land, on making proper proof of his right under such rules as may be prescribed by the Secretary of the Interior: Provided, That the collector of customs for the district in which said land is situated is hereby authorized, and it is made his duty to select for such minor children as would be entitled under this law as heirs of any Indian.

SEC. 3. That all actual, permanent, bona fide settlers on any of said lands who settled prior to the first day of January, eighteen hundred and seventy-two, shall be entitled to enter either under the homestead laws or to pay for at the minimum or double minimum price, as the case may be, not exceeding one hundred and sixty acres of the former or eighty acres of the latter class of land on making proof of his settlement and continued residence before the expiration of six months from the passage of this act.

SEC. 4. That all selections by Indians heretofore made and regularly reported and recognized as valid and proper by the Secretary of the Interior and Commissioner of Indian Affairs, shall be patented to the respective Indians making the same; and all sales heretofore made and reported where the same are regular and not in conflict with such selections, or with any other valid adverse right, except of the United States, are hereby confirmed, and patents shall issue thereon as in other cases according to law.

SEC. 5. That immediately after the expiration of said six months, the Secretary shall proceed to restore the remaining lands to market by public notice of not less than thirty days, and after such restoration they shall be subject to the general laws governing the disposition of the public lands of the United States: Provided, That none of the lands herein mentioned shall be subject to or taken under any grant of lands for public works or improvements, or by any railroad company.

Approved, June 10, 1872.

By the President of the United States of America:

A PROCLAMATION.

Whereas by an act of Congress, entitled "An act to enforce the provisions of the fourteenth amendment to the Constitution of the United States, and for other purposes," approved the twentieth day of April, anno Domini one thousand eight hundred and seventy-one, power is given to the President of the United States, when, in his judgment, the public safety shall require it, to suspend the privileges of the writ of habeas corpus in any State or part of a State whenever combinations and conspiracies exist in such State or part of a State, for the purpose of depriving any portion or class of the people of such State of the rights, privileges, immunities, and protection named in the Constitution of the United States, and secured by the act of Congress aforesaid; and whenever such combinations and conspiracies do so obstruct and hinder the execution of the laws of any such State, and of the United States, as to deprive the people aforesaid of the rights, privileges, immunities, and protection aforesaid, and do oppose and obstruct the laws of the United States and their due execution, and impede and obstruct the due course of justice under the same; and whenever such combinations shall be organized and armed, and so numerous and powerful as to be able by violence either to overthrow or to set at defiance the constituted authorities of said State and of the United States within such State; and whenever, by reason of said causes, the conviction of such offenders and the preservation of the public peace shall become, in such State or part of a State impracticable;

And whereas such unlawful combinations and conspiracies for the purposes aforesaid are declared by the act of Congress aforesaid to be rebellion against the Government of the United States;

And whereas by said act of Congress it is provided that before the President shall suspend the privileges of the writ of habeas corpus, he shall first have made proclamation commanding such insurgents to disperse;

And whereas on the twelfth day of the present month of October the President of the United States did issue his proclamation, reciting therein, among other things, that such combinations and conspiracies did then exist in the counties of Spartansburg, York, Marion, Chester, Laurens, Newberry, Fairfield, Lancaster, and Chesterfield, in the State of South Carolina, and commanding thereby all persons composing such unlawful combinations and conspiracies to disperse and retire peaceably to their homes within five days from the date thereof, and to deliver either to the marshal of the United States for the district of South Carolina, or to any of his deputies, or to any military officer of the United States within said counties, all arms, ammunition, uniforms, disguises, and other means and implements used, kept, possessed, or controlled by them for carrying out the unlawful purposes for which the said combinations and conspiracies are organized;

And whereas the insurgents engaged in such unlawful combinations and conspiracies within the counties aforesaid have not dispersed and retired peaceably to their respective homes, and have not delivered to the marshal of the United States, or to any of his deputies, or to any military officer of the United States within said counties, all arms, ammunition, uniforms, disguises, and other means and implements used, kept, possessed, or controlled by them for carrying out the unlawful purposes for which the combinations and conspiracies are organized, as commanded by said proclamation, but do persist in the unlawful combinations and conspiracies aforesaid;

Now, therefore, I, ULYSSES S. GRANT, President of the United States of America, by virtue of the authority vested in me by the Constitution of the United States, and the act of Congress aforesaid, do hereby declare that, in my judgment, the public safety especially requires that the privileges of the writ of habeas corpus be suspended, to the end that such rebellion may be overthrown, and do hereby suspend the privileges of the writ of habeas corpus within the counties of Spartansburg, York, Marion, Chester, Laurens, Newberry, Fairfield, Lancaster, and Chesterfield, in said State of South Carolina, in respect to all persons arrested by the marshal of the United States for the said district of South Carolina, or by any of his deputies, or by any military officer of the United States, or by any soldier or citizen acting under the orders of said marshal, deputy, or such military officer, within any one of said counties, charged with any violation of the act of Congress aforesaid during the continuance of such rebellion.

In witness whereof I have hereunto set my hand, and caused the seal of the United States to be affixed.

Done at the city of Washington this seventeenth day of October, in the year of our Lord one [SEAL.] thousand eight hundred and seventy-one, and of the independence of the United States of America the ninety-sixth.

J. C. BANCROFT DAVIS, Acting Secretary of State.

No. 8.

By the President of the United States of America:

A PROCLAMATION.

WHEREAS satisfactory information has been received by me, through Don Mauricio Lopez Roberts, Envoy Extraordinary and Minister Plenipotentiary of His Majesty the King of Spain, that the government of that country has abolished the discriminating duties heretofore imposed on merchandise imported from all other countries, excepting the islands of Cuba and Porto Rico, into Spain and the adjacent islands, in vessels of the United States, said abolition to take effect from and after the third day of [illegible] Now, therefore, I, Ulysses S. Grant, President of the United States of America, by virtue of the authority vested in me by the act of Congress of the 7th day of January, 1824, and by an act in addition thereto, of the 24th day of May, 1828, do hereby declare and proclaim that on and after the said first day of January next, so long as merchandise imported from any other country, excepting the islands of Cuba and Porto Rico, into the ports of Spain and the islands adjacent thereto in vessels belonging to citizens of the United States shall be exempt from discriminating duty, and such duties on merchandise imported into the United States in Spanish vessels, excepting from the islands of Cuba and Porto Rico, shall be discontinued and abolished.

In testimony whereof I have hereunto set my hand, and caused the seal of the United States to be affixed.

Done at the city of Washington this nineteenth day of December, in the year of our Lord [SEAL.] one thousand eight hundred and seventy-one, and of the Independence of the United States of America the ninety-sixth.

U. S. GRANT.

By the President:
HAMILTON FISH, Secretary of State.

By the President of the United States of America:

A PROCLAMATION.

Whereas in my proclamation of the twelfth of October, in the year eighteen hundred and seventy-one, it was recited that certain unlawful combinations and conspiracies existed in certain counties in the State of South Carolina for the purpose of depriving certain portions and classes of the people of that State of the rights, privileges, and immunities and protection named in the Constitution of the United States and secured by the act of Congress, approved April the twentieth, 1871, entitled "An Act to enforce the provisions of the fourteenth amendment to the Constitution of the United States, and the persons composing such combinations and conspiracies were commanded to disperse and retire peaceably to their homes within five days from said date;

And whereas by my proclamation of the seventeenth day of October, 1871, the privileges of the writ of habeas corpus were suspended in the counties named in said proclamation;

And whereas the county of Marion was named in said proclamation as one of the counties in which said unlawful combinations and conspiracies for the purposes aforesaid existed, and in which the privileges of the writ of habeas corpus were suspended;

And whereas it has been ascertained that it said public safety shall require it, to suspend the privileges of the writ of habeas corpus in any State or part of a State, whenever combinations and conspiracies exist in such State or part of a State for the purpose of depriving any portion or class of the people of the county of Marion said combinations and conspiracies do not exist to the extent recited in said proclamation;

And whereas it has been ascertained that unlawful combinations and conspiracies of the character and to the extent and for the purposes described in said proclamations do exist in the county of Union in said State;

Now, therefore, I, Ulysses S. Grant, President of the United States of America, do hereby revoke as to the said county of Marion, the suspension of the privileges of the writ of habeas corpus directed in my said proclamation of the 17th day of October, eighteen hundred and seventy-one;

And I do hereby command all persons in the said county of Union composing the unlawful combinations and conspiracies aforesaid to disperse, and to retire peaceably to their homes within five days of the date hereof, and to deliver either to the marshal of the United States for the district of South Carolina, or to any of his deputies, or to any military officer of the United States within said county, all arms, ammunitions, uniforms, disguises, and other means and implements used, kept, possessed, or controlled by them for carrying out the unlawful purposes for which the combinations and conspiracies are organized.

In witness whereof I have hereunto set my hand, and caused the seal of the United States to be affixed.

Done at the city of Washington, this third day of November, in the year of our Lord one thou-[SEAL.] sand eight hundred and seventy one, and of the Independence of the United States of America the ninety-sixth.
